Aruba Class

The Aruba class skiff combine old world craftsmen style with modern design accents. Our craftsmen marries the rich and exquisite detailing of Teak with modern features like chrome fittings and hardware. This coupling of "the old" and "the new" make the Aruba Series skiffs visual stunning and a great everyday family boat. Our highly skilled craftsmen use only the highest grade teak to hand craft the floorboards, rub rail, bow breastplate and other wood accessory.

World Class Standard

We take extreme pride in our work. Each custom-ordered boat requires hundreds of hours of artisans and craftsmen work to complete the exquisite detailing. The wait is worthwhile. The result is world class. It's now a boat that stands out from the rest, like its owner, and is an investment that becomes a part of your family's boating life forever.

This beautiful cruiser can carry up to 8 in elegant style. It is 23' long with a 6'5" beam and draws only 8" to 10" of water. It comes with a 70 HP Yamaha that reaches a top speed of 30 MPH and has enough power for water sports towing.

All Caribiana Skiff's are built to order and build slots are limited due to high demand for these unique heirloom boats. Call to reserve your build slot today!
